UNDER HOOD LIGHT

FLEXIBLE MECHANICS LIGHT

The FLEXIT Under Hood Light is a compact, magnetic, flexible band of highly efficient LEDs designed for optimal visibility while servicing your engine. Powerful Rare Earth Neodymium magnets in combination with hooked elastic straps allow for a secure, universal fit under the hood of your vehicle while you work.

The 1000 Max Lumen LED light band can be controlled by the dual power buttons on either end of the band, and rotated 160° to better control the direction of the light source. The FLEXIT Under Hood Light is more than a maintenance companion, it's a versatile tool that enhances visibility with every task and wherever your adventures may take you.

**1000
LUMENS**

20" FLEXIBLE LED LIGHT BAND

NEODYMIUM MAGNETS

USB-C CHARGE PORT

ADJUSTABLE ELASTIC HOOD STRAPS

160° LED BAND ROTATION

POWER / LIGHT MODE BUTTON

ABS PLASTIC HOOD HOOKS

QUICK RELEASE ELASTIC STRAPS

**160°
ROTATION**

UNLIMITED VERSATILITY

The FLEXIT Under Hood Light is a versatile lighting solution made for a wide variety of low-light situations. Powerful neodymium magnets hold the light securely in place on any metallic surface, and the light's elastic quick release straps can be used to hook onto the edge of car hoods or in any instance where magnets will not stick. The flexible 20" LED band can be rotated 160° to direct the light where it is needed, and this powerful light can last 24 hours on low power with a single charge.
